GPS LOCATION:	40.459299,-109.521978
MEETING TIME:	8:30 AM
RETURN TIME:	Approximately 2:30 – 3:30 PM
RIVER RATING:	Class II – III
RIVER MILES:	9
RIVER SECTION:	Rainbow Park to Split Mountain Campground
AGE LIMIT:	Minimum age is 6 years (11 years during high water)
BOAT TYPE:	Paddle raft (Oar rafts may be available upon request)

Rippling red and brown sandstone contrasts with the deep green trees and grasses that grow along the river and up the canyon walls, feeding local bighorn sheep. Ancient fossils co-exist with prehistoric petroglyphs on the riverbanks and in the cliffs. The Green has long been a legendary whitewater run. Big-wave rapids are exciting for experienced boaters, but not so formidable as to discourage first-time rafters. In fact, this is a river that welcomes people of all ages and experience levels. There are four Class II - III rapids in this stretch of the Green River: Moonshine, S.O.B., Schoolboy and Inglesby. This one-day rafting trip is the perfect mix of spectacular scenery with just enough whitewater to add a little spice.

THE ORIGINAL RIVER RUNNING COMPANY SINCE 1929

There is no substitute for experience. Known throughout the whitewater rafting world as the “original river running company,” the Hatch name has been synonymous with river running since 1929. Bus Hatch, founder of Hatch River Expeditions and patriarch of the Hatch family, is credited with starting the modern recreational rafting movement. Always focused on our clients and their vacations, it is our genuine belief that river trips and nature-based adventures are extremely valuable life experiences. With that as our foundation, we have committed ourselves over the years to providing the best trips available, always with an eye on improvement.

BOAT SELECTION

- We typically run the Split Mountain section of the Green River exclusively in paddle rafts – fun, maneuverable inflatable rafts powered by four to seven passengers with paddles, along with a guide. Paddle rafts offer an active, hands-on challenge and are usually the preferred vessel on most whitewater trips. If you do not wish to be in a paddle raft, we may be able to accommodate you and we must **know in advance**.

WHITewater

- This section of the Green River offers thrilling Class III rapids, interspersed with calm sections that inspire swimming, watching for wildlife, and gazing at the canyon scenery. Despite these slower stretches, the whitewater is consistent on the Green – you’ll challenge major rapids plus lots of smaller waves and riffles. The Green river through Split Mountain Canyon is ideal for first-time rafters and children as young as 6, but not short on excitement for more seasoned boaters.

Sample Itinerary

We pride ourselves in running a relaxed and always flexible schedule. Every trip is different depending upon the group, other trips on the water and sometimes the weather. The following is a sample of what your trip might be like.

- Upon everyone’s arrival at the Don Hatch Warehouse, we’ll take the 45 minute shuttle ride to our put-in at Rainbow Park, stopping along the way to view some Native American Petroglyphs. Once we reach the put-in at Rainbow Park, your guides will give a thorough safety talk and orientation. Then, we’re off!
- We’ll run three rapids (Moonshine, S.O.B. and Schoolboy) before stopping at “Don Hatch Beach” for our famous, “build-your-own-masterpiece,” deli-style lunch. Maybe we’ll play a quick game of Frisbee or just relax and soak in the summer sun. After lunch, we’ll continue the remaining 3-4 miles of Split Mountain Canyon and finish our day navigating Inglesby rapids.
- The expedition ends at the Split Mountain Boat Ramp where we’ll board our shuttle and contemplate our memories of a great day during the 30-minute bus ride back to Vernal, arriving at our warehouse between 2:30 and 3:30 PM.

Dietary Restrictions

We need to know as soon as possible about any dietary requirements we should consider in planning your trip. If you have food allergies or restrictions, we will do our best to accommodate your needs. **However, some specific needs can only be met if we charge you a supplemental menu fee to cover our increased costs.** If you are a vegetarian or vegan, and you let us know well in advance, we can provide meals for you without additional cost. We cannot always provide for the same diversity or sophistication as our regular menu for special dietary requests.

Cameras

We provide a small waterproof bag (17" tall x 9" diameter—approximate sealed size) per boat to hold your camera and other items you might need during the day. While these bags are designed to be waterproof, you may wish to place your camera in a zip-lock plastic bag or waterproof casing for additional protection. We also strongly recommend you take out a rider on your homeowner's policy to cover your camera—especially if it's fine equipment. If you are planning on bringing a digital camera, make sure to bring additional memory cards, batteries, and any other extras you will need. Disposable waterproof and panorama cameras are also a fun option. We are not able to provide a power source for recharging camera batteries.

Electronics & Technology

The use of electronic devices, especially music players, on your trip may represent an intrusion into the wilderness experience of your fellow guests. We ask that you please be mindful of the impacts to others and respect the wilderness nature of the trip.

Many of our guests travel with their smartphone even though there is no cell service. On a trip like this, there is always the risk of water damage to smartphones and other electronic devices, even when they are stowed in a dry bag. If you intend to take your phone with you on the river, consider investing in a small, waterproof container just for your phone.

Communication

Once you are on the river there is limited communication with the “outside world.” Cell phone service is not available. Our guides carry satellite phones which are strictly used to call out in case of an emergency situation on the river. They can call out, but we cannot call them. If you have someone that needs to contact you about an emergency at home, they should call our office (800-346-6277).

Weather

You may want to check one week prior to your trip for an up-to-date weather forecast. We recommend the following website: www.wunderground.com for weather in Vernal, UT.

GETTING READY

Physical Requirements

Our primary goal is for you to have an enjoyable experience. The nature of the trip is such that it involves some physical exertion and potential exposure to the elements, including cold water, heat, sun, wind and rain. We have experience accommodating people with a wide range of physical disabilities and/or health conditions. However, individuals who are overweight or lack conditioning can endanger themselves, other guests and the guides. Please consult your doctor if you have medical or health conditions that could impact your ability to participate in this outdoor adventure. In general, trip participants must be able to:

- Wear a Type V Coast Guard approved personal floatation device (maximum chest size of 56 inches)
- Climb on and off the boats multiple times
- Navigate uneven terrain
- Self-rescue by swimming to a boat or to shore in the event of an involuntary swim in a whitewater rapid

Physical Preparation

Due to the physical nature of this trip, we highly recommend that you engage in regular exercise for at least one month prior to departure to ensure preparedness. No gym membership required! Simple exercises like push-

ups, sit-ups and squats go a long way to improving core fitness. **Getting in shape will certainly add to your enjoyment of the trip.**

PACKING FOR YOUR TRIP

The best choice is an amphibious shoe that drains water, won't come off in swirling current and protects your toes from stubbing and the tops of your feet from sunburning. An old pair of tennis shoes will work almost as well. Sport sandals with an ankle strap are OK. "Water socks" are not a recommended option and flip flops or "Crocs" are not acceptable. For trips in the spring, we recommend wearing shoes along with wool or neoprene socks to keep your feet warm. Wetsuit booties with a reinforced sole are also a good option.

Clothing

We recommend starting with bathing suit/swim trunks and a lightweight synthetic shirt, then adding layers of synthetic long underwear and fleece as needed. It can be cool in the morning even during mid-summer.

Sun Protection

Protecting yourself from the sun should be taken very seriously. A hat, sunscreen, lip balm and sunglasses are a must. In many cases, a long-sleeve shirt is the best method for preventing sunburn on your upper body. Lightweight long pants may also be appropriate to protect your legs.

Suggested Packing List

- Sunscreen & lip protection: waterproof and SPF 30 or higher
- Water bottle with securing clip
- Shade hat/visor
- Sunglasses (preferably polarized) with securing strap
- Bathing suit
- Shorts (long board shorts preferable for sun protection) and quick drying top
- River/tennis shoes or river sandals with an ankle strap
- Wetsuit (for April – early June trips only)

Reminders

- **ALWAYS BE PREPARED FOR CHANGEABLE WEATHER!** Especially during the months of April, May and early June, Utah can experience extreme changes in weather.
- **To avoid being cold:** Synthetic long underwear is a must-have on river trips in the spring and fall. It can be worn under shorts, rain gear, T-shirts, etc. and keeps you warm even when wet.
- **Wearing cotton items on a river trip is only appropriate when the weather is hot. Wet cotton will chill your body temperature.**

Extra Gear

We recommend that you leave your valuables at home or in your private vehicle and take on the river only what's absolutely necessary. Leave dry shoes and clothing in your car as well to ensure a comfortable drive home. The Don Hatch warehouse does provide small lockers for personal items such as a wallet and keys.

Gratuities

Guests often ask whether gratuities are appropriate, and in what amount. If you feel your guides have provided a very special trip for you, a gratuity may be left with the trip leader and will be shared among the crew. Entirely discretionary, anything between 5% and 10% of the trip cost is a general tipping guideline. If you plan to tip, remember to bring a personal check or cash—ATM's are hard to find in the backcountry!
